ELECTRICITY!
The Electro Magnetic Mallet
The latest North American invention for filling teeth with gold is an instrument of exceedingly delicate mechanism capable of such exact manipulation as to work without the slightest inconveniance to the person operated on, entirely avoiding the fatigue of the hand mallet giving at the same time a solidity to the gold that is unapproachable by any other method, and a beauty and perfection hitherto unknown.

There is a serious split in the Cabinet about applying the old unrepealed laws against religious orders, which have been allowed to remain a dead letter. The Minister of the Interior daily receives petitions for the expulsion of the religious orders, The matter creates immense public attention.

The Senate have passed by 187 to 102 votes Jules Ferry's Bill, throwing out article 7, which excluded religious teachers.

THE GENIUS OF IMMIGRATION.

Mr. Vicuña Mackenna, the Chateaubriand of Chile, in a beautiful and able paper published in the *Mercurio* of Valparaiso, exquisitely traces the Genius of Immigration in the Argentine Republic, which has lifted it over the heads of all the other South American republics and spread the sunshine of prosperity through the Plate. Step by step, since the year 1857, he has followed the career of the immigrants, linking with our immigration figures every feature of national progress which, in the opinion of this gifted Chilian, culminates this year in the Continental Exhibition in the Plaza Victoria.

There is really no happier picture of the Argentine nation than what Mr. Mackenna so ably sketches in this article; he reminds us of Gen. Mitre's programme before the Paraguayan war—12 millions pats revenue and 50,000 immigrants in the year, both of which we last year not only realized but surpassed, the revenue being in 1878—$18,654,898 fts, and the immigrant arrivals 50,205; and he remarks that within the last 22 years the total number of immigrants that arrived at the Plate and made it their home was 638,538, being exactly the total population of the whole nation when it emancipated itself from foreign rule in 1810.

Buenos Ayres in the year 1780 had the same number of inhabitants as Santiago, the capital of Chile, 22,205. To-day it has the population of Santiago, Lima and La Paz—three South American cities engaged in fratricidal war and trying to kill each other in the strife—370,000 souls. Through the same port that Rosas fled, thousands and tens of thousands of immigrants have poured into the country; and, if we are to judge the future from the past, the probabilities are that Buenos Ayres will, ere long, become one of the wealthiest and greatest cities.

In 1877, the year of Conciliation by Adolfo Alsina, immigration, which had dropped away again, grew strong, and just as Mr. Mackenna pens his article, he receives a telegram announcing the arrival in Buenos Ayres of a steamer with one thousand immigrants on board. The Plate, he says, has ten lines of steamers plying with Europe, and spite of all the fuss and nonsense going on about politics, the future of the Plate is safe, simply because it is 'mestizo,' and the crossing of blood will save the nation.

In a hurried sketch of Buenos Ayres, Mr. Mackenna gives the following:—"It has eight theatres, and of these five are always open: two rival operas; 14 clubs, some of them most sumptuous, others most humble and unpretending. The Germans alone have nine clubs of their own. The Union Club, the same as our own, is exclusively English. Four Protestant churches, five hospitals, three cemeteries, 1000 kilometres of tramway, 24 newspapers published in all the modern languages, and three large gas companies without privileges—that is to say, servants, not masters, of the public; and this is the city which the immigrant has built up and is transforming every day. It grows and stretches out, and has eleven plazas, which may be termed lungs for the people.

In 1876 there were on the estancias of Buenos Ayres—

Spaniards	18,000
English	14,000
Italians	13,000

"With these hands the estancias have become colonies, and the colonies become towns. The colony of Resistencia is a fit type of the spontaneous working of immigration: it is composed of 224 Argentines, 12 Paraguayans, 7 Brazilians, 9 Spaniards, 10 English, 388 Italians, 317 Austrians, and 299 Tobas Indians. The 'chiripa' and 'poncho' are out of fashion, and the sons of the men of Rosas are the mere shearers of sheep in the galpones. The Plate has to-day 56 millions of sheep, and the Rambouillet has conquered the gaucho. Taking, therefore, the figures of Dr. Rawson, the population of Buenos Ayres at the end of this century will be *one million*; and in a recent report of General Osborne, American Minister, published in Washington on 5th November, 1879, the Minister says the Plate has 14 million head of horned cattle, 56 millions sheep, some of them worth from 100 to 300 pats. each; and the same report says that 80 per cent of the immigrants are farmers and agriculturists.

"Prepared by this giant impulse, by this strong, fresh, life current of human beings, Buenos Ayres now makes a domestic exhibition in her Plaza Victoria, to commemorate her third century of life and three hundredth birthday of the city since Garay's soldier struck his lance into the ground, and, snuffing the breeze from the Pampa, exclaimed, "What 'buenos ayres' about here, boys!" The invitation to this Exhibition is not from Government to Government, but from the Club Industrial, from workmen to workmen. It asks no support of Government, save a farthing subsidy of 40,000 fts. and a few medals. Another mystic sign is that in the Comision Directiva all the names are of foreigners, sprung from the immigrant; the President is Coni; the Vice, Daumas; the Secretary Suñal; Vice, Capelle; Treasurer, Peuser; and of the twelve members of the Committee only four have the native ring in them. Thus, for one Peña, one Marti and two Martinezes, there are two Schwartz, one Dormal, one Binden, a Peck, Ansaldi, Forus, Kyle, Benoist and Maveroft, whose very names indicate the impulsive races of Europe—Teuton, Gaul, Celt, Saxon, Slave, Muscovite. Dr. Avellaneda is the Hon. President, but the real President is Coni, whose printing-presses equal the best in Paris or London. Chile will go to Buenos Ayres, and if the Government opposes it, the people themselves will go, the artizans and the mechanics, with their tools and implements."

Bravo! Vicuña Mackenna; Chile may well be proud of you. Your article and your friendly appreciations are worth all the protocols signed, sealed and delivered since Patagonia was discovered; and we welcome the happy thought that the Buenos Ayres Exhibition solves the Chilian Question.

The Magellan & Archimedes's Mails.

London, March 12th

Last evening, in the House of Lords, the Earl of Beaconsfield, in answer to Lord Granville, said there was no foundation for the report that her Majesty's Government had released the Persian Government from their treaty engagement not to enter Herat. A bill for making employers liable for injuries sustained by their servants was introduced by Earl De La Warr, and their lordships adjourned.

In the Commons, Mr Whitley, the new member for Liverpool, took his seat, amid loud cheers from his Conservative friends. The adjourned debate on the amendment to the motion for an answer to the Royal Speech was resumed and continued throughout the sitting. On a division, there voted for the Home Rulers' amendment, 66; against it, 216; majority, 150. The address was then agreed to *nem. con.*

Reassured by the defensive works constructed at Cabul, the people, taking advantage of the amnesty, are returning to the city. The balance of the Alisherzai (?) fine has been paid, and the Thull hostages released.

From Cairo, under date Feb. 10, it is announced that the arrears of the Egyptian Tribute to the Porte have been paid. The Great Powers have resumed negotiations for the appointment of an International Committee of Liquidation to effect, by means of mutual concessions, a final settlement of the Egyptian financial situation, binding upon all parties.

A serious accident has occurred at Beykoi, near Constantinople. Whilst military festivities were proceeding the barrack, a building three storeys high, suddenly fell in; 200 of the soldiers are reported to have been killed and 300 in jured.

Yesterday, the Court of First Instance, Madrid, sentenced Otero to death for the attempt on the life of King Alfonso.

M. Freycinet has received a telegram from the French Ambassador in Constantinople, informing him that the Kaimakan of Alexandretta has been definitively dismissed in consequence of the recent violent treatment of French sailors who had been engaged in an affray with Mohammedans.

It is announced, on the authority of a personal friend of Gen. Grant, that, should the National Republican Convention nominate the General for the Presidency of the United States, he will accept the candidature.

Sir Charles Gavan Duffy, Speaker of the Victorian Legislative Assembly, is to start for England on the 20th instant. The Victorian Parliament has been dissolved, and the elections fixed for the 28th instant.

Mr Dunn, Mr Clarke, and Mr Shipton were yesterday respectively nominated candidates for the borough of Southwark; and on the same day Sir Robert Carden, Conservative, and Lord Lymington, Liberal, were nominated for the representation of Barnstaple.

Mr Bright presided last evening at Union Chapel, Islington, when Mr Dale, of Birmingham, delivered an address on 'Nonconformity.' The right honourable gentleman, in introducing the subject, dwelt on some of the effects of religious intolerance in past times.

Mr Lowe, addressing the Croydon Liberal Association last night, said the policy of the Government had humiliated rather than exalted England in the eyes of Europe. At home Ministers were fast teaching the people how to do without Parliament. In bringing troops from India, entering into secret treaties, and taking over Cyprus, they had struck at the keystone of English liberty.

One of the Orient Company's steamships, the Chimborazo, having left Plymouth for Australia last Sunday, encountered terrific weather, her decks being swept, with loss of five lives, skylights, hatches, deck-houses, and six boats. She has put back into port, and has landed all her passengers, among whom fifteen have had their limbs broken, or have suffered other injuries.

Our Dublin correspondent telegraphed last night that the ruins of the Theatre Royal were still smouldering, and that, owing to the great heat of the burning material, it was found impossible to search for the body of Mr Egerton, the stage manager. Of four men injured during the fire, only one is regarded as being in a dangerous condition.

A firmer tendency was shown on the Stock Exchange yesterday, especially in the afternoon, when a general rise took place in English lines. North Staffordshire was in prominent request, and improved 3 per cent. Amongst the Foreign securities Egyptian, Mexican, Russian and Turkish Tribute advanced, but Chilian gave way. American and Canadian lines were comparatively neglected. Consols were steady, at 97⅞, 98. About £26,000 in gold was withdrawn from the Bank for export.

So far as cost of life goes, says the *Standard*, we had better have fought a battle than had to contend with the weather of the past few days; for, since Waterloo, no English battle has numbered so many slain as this last visitation of fog and frost has claimed. We may reasonably expect that, after the favourable change which has now taken place, the exceptional mortality will disappear as quickly as it came. Three weeks ago there was hardly a sign of it, and as lately as a fortnight since, the death rate, though exceptionally high, stood only fractionally above 31. The most frail lives have now been swept away, and the weather is again favourable for the recovery of those who survive but have not altogether escaped. It is humiliating to confess that we are really powerless in the face of such attacks as these, but we shall, perhaps, regard them with more equanimity if we remember that by aid of more careful and more healthy modes of living, we have so far succeeded in prolonging the average of life that we have always amongst us a large proportion of lives hanging as it were by a thread, lives which would long ago have passed away under the rougher 'regime' of our forefathers, and which must always be liable to succumb to exceptionally severe assaults such as that we have just experienced. The prolongation of useful lives is a matter of such importance to the community that we may congratulate ourselves that our advances in the science of life have been so richly rewarded as they have; while these occasional rebuffs remind us that there is yet a wild field open for further effort in the same direction.

THE DESTRUCTION OF DUBLIN THEATRE ROYAL

The Dublin papers contain long descriptions of the destruction of 'The Old House in Hawkins-street,' the Theatre Royal, by fire. As we briefly reported yesterday, there was to have been a performance for charitable purposes of the pantomime. His Grace the Lord-Lieutenant and the Duchess of Marlborough had signified their intention of attending, and a distinguished and crowded audience was anticipated. About half an hour before the time, however, the curtain rose on a performance of a widely different character, the actor being one that has played a leading part on many a stage, and invariably attracted the wrapt attention of all beholders. The Fire Fiend 'came on,' as the saying is, stealthily, and with a firm determination to carry out his malignant purpose in the teeth of all opposition. Shortly before one o'clock the final preparations were being made for the special performance and the reception of the Viceregal party. The richly upholstered box set apart for the accommodation of the distinguished visitors had been carefully arranged and the graceful drapery suitably disposed. The bulk of the staff had gone off for dinner, and only a few were on the premises at the time. A little boy, acting presumably under instructions, proceeded with a spirit lamp and a sponge to light the jets behind the Viceregal box. Almost immediately the curtains surrounding it were observed to be on fire. This was the 'fons et origo' of what has turned out to be a terribly destructive conflagration, and what invests it with the most melancholy interest is the sad fact that it has involved the loss of four or five lives, amongst the victims being Mr. Egerton, general manager, who may be said to have perished at his post. The hands engaged about the stage at the time were chiefly 'cleaners.' Mr. Hyland, acting manager, was in the building at the time, and when the 'cleaners' informed him of what had occurred, that gentleman gave immediate directions to alarm the Fire Brigade, and then proceeded to the stage. On his arrival there he found the box in flames. He at once summoned Mr. Egerton, and they ran to the hose, which was situated at the back of the stage. Mr. Egerton rolled the hose to the footlights, while Mr. Hyland turned on the hydrant. The smoke suddenly became so dense that Mr. Hyland was obliged to beat a hasty retreat down the stairs leading to the stage door. With much presence of mind he entered the office adjoining, and secured a number of valuable papers and books, which he had conveyed to an oyster shop on the opposite side of the street. As he left the stage he called upon Mr. Egerton to come away with him; but Mr. Egerton, in the vain hope of arresting the progress of the flames, continued to work energetically at the hose. It is believed that the stage went down with a crash, and that the unfortunate gentleman was engulfed in the torrent of flames. At 4.30 o'clock, when almost every spar of the building had been consumed and the flames appeared to have subsided somewhat for want of new material, the Lord-Lieutenant arrived and minutely inspected the condition of the burning pile. The amount of property destroyed is estimated at £40,000. The amount covered by insurance is £16,000 – £15,000 for the the building, and £1,500 for the theatrical property. The offices in which the insurance was effected are the Northern and the Royal. The gorgeous wardrobes and appointments connected with the production of the pantomime are, of course, consumed, and, curiously enough 'Ali Baba and the Forty Thieves' has had such a successful run during the season that two English managers had arrived on Monday to purchase it from Mr. Gunn. It was very painful to witness the attempt made by Mr. Egerton's son, a youth of about sixteen years of age, to plunge into the seething flames when he learned the fate of his unhappy father. Mr. Egerton was universally esteemed, and the greatest sympathy is felt for his widow and family. One of the most interesting portions of the building was the library, in which were stored many rich and valuable old books and plays, MSS., and autographs of great players. There were also some musical folios of great value, and many with associations that lent to them an interest greater than their value. These have, of course, all been destroyed; and it may be mentioned, too, that amongst the properties that have perished were many quaint old dresses, pieces of armour, &c., collected, many of them, by the late John Harris, and all of exceptional value for theatrical purposes. But of all the properties that have been destroyed, none equalled in interest the great bell formerly belonging to the old Carmelite Abbey of Dublin.

BRITISH HOSPITAL REPORT.

At the last ordinary general meeting of subscribers Messrs. R J Neild, R Bridgett and R J Runciman having resigned, Messrs. W Congreve, J B Wanklyn and W Roberts were chosen to act on the Committee of Management, together with Messrs. E H Salisbury, E Norton, T S Boadle, A Shaw and G H Tucker as Suplentes.

A perusal of the accounts will show that the working of the institution during 1879 has been generally satisfactory.

The patients admitted and under treatment during the year were 673, of whom 402 were in and 271 out-patients; of these 27 died, 490 were cured, and 146 were relieved. The total increase of patients was thus 39 over last year, but the increase of in-patients is 47, thus showing the ever-increasing use made of the institution.

The cost of management has been somewhat heavier this year, as will be seen from the statements, and which amounts to $382,536, against $351,039 last year. This increase arises from the larger number of patients, and especially of private patients, for whom special attendants have to be found, from the increased prices of meat last year, and from the endeavours made by the Committee to make the nursing as efficient as possible.

Our income is made up as follows:—

	$ m/c.
Subscriptions, donations &c.	189,575
Benefits	24,309
Fees from patients	155,868
Shipping dues	67,179
	436,929

which cannot but be considered as satisfactory, and special thanks are due to those gentlemen who have undertaken collections.

The Committee has continued the plan of placing the proceeds of Benefits and Donations to a special account in the London Bank, and the deposit of $106,708 has been already increased to $131,017 m/c, and will be immediately further increased by other small donations and the surplus from the year's working, making it thus stand at $161,101, or a total increase, as will be seen by the 'Revenue Statement,' of $51,393. Thus forming a satisfactory nucleus of funds, for the improvements of which the Hospital so much stands in need.

As was announced in the last report, Dr Colbourne's contract expired on the 7th May, and though the Committee had taken steps considerably before that date to obtain a suitable person to occupy the vacant position, it was not until 3rd September that Dr Carlyon, a gentleman chosen by Professor Lister, and whom the Committee trust will be found suitable in every way, arrived here. Between the above two dates the duties of House Surgeon were filled first by Dr Colbourne, who very kindly waited until some one was engaged, and then by Dr Rodman, to whom the Committee have to tender their very cordial thanks for his generous offer to attend to the duties without remuneration.

The long discussed question of female nursing is now likely to have a trial. The Committee have sent instructions to a person indicated by Dr Carlyon to contract with three trained Nurses, and a reply about same is hourly expected. The Committee have great hopes that if suitable persons are found, improvement in the nursing and attendance will be the result, as it has hitherto been extremely difficult to find persons in this country possessed of sufficient experience to discharge the duties of nurses in a satisfactory manner.

At the General Meeting of the Subscribers held on the 17th of April the advisability of obtaining the 'Personeria' or official registration of the Institution, was discussed, and the Committee requested to take what steps they considered proper to that end. In order to present the statutes to the Government in as unchangeable and condensed a form as possible, it was considered necessary to revise the old statutes, dividing them into 'Statutes' and 'Bye-Laws.' The new form of these was accepted at the Extraordinary General Meetings of 29th July and 13th August, and Mr G. H. Tucker has kindly undertaken to obtain the sanction of the Statutes by the Provincial Government. When the 'personeria' is obtained, it will be for the consideration of the Committee and Subscribers to decide whether steps should be taken for the sale of the present property and for building a new Hospital on another site, or if a scheme should be adopted for altering the present buildings, on a plan of which a part—such as a properly built large ward—could be undertaken shortly, the remainder being carried out as the requirements of the Hospital call for it or the funds allow.

The improvement and enlargement of the Southern wing of the Hospital have been carefully considered by the Committee, but they have been advised by the architect, Mr. Aberg, who very kindly revised that part of the building thoroughly, that the foundations and walls would not allow of the changes proposed. The plan of thus improving the accommodation by that means has had to be abandoned, but the Committee trust their successors may be enabled before long to supply the Hospital with a ward, which, whilst offering the great advantage of improved ventilation, will also allow of more economical and more systematic attendance on the patients than does the present style of rooms.

The Hospital building has again cost a considerable amount in repairs to the walls and plastering, and all the outside doors and windows have been painted. There are several things that ought to be done, but have been left over in the hopes of soon deciding upon some means of replacing the present building, which must always continue to be a source of considerable expenditure, on account of the unsatisfactory class of materials and workmanship employed.

The thanks of the Committee are tendered to Messrs. A Williamson, J J Kyle, May & Co., and Mrs Krabbe, for illustrated papers; to Messrs J Coghlan, J Rich, and E Salisbury, for newspapers; to Messrs A Le Rossignol, Ed. Browne,

and the Literary Society, for books; to Messrs Milligan and Williamson, Ashworth & Co., and Bates Stokes and Co., for calico; and to Messrs J Todd, E Duguid, A H Coaker, J Menzies and P Hazeon for left off clothes; and Mrs Nowell for fruit. The Committee also thank the clergymen of the various denominations for their services on the Committee, and for their constant visits to the Hospital, Messrs Mulhall and Lowe for the supply free of charge of the *Standard* and *Herald* newspapers, and the visiting Medical officers for their untiring assistance; and this opportunity cannot be allowed to pass without making special mention of the deep obligation the Institution has ever been under to the late Dr. Macdonald, and of the regret felt at his loss.

The Committee would call the attention of the kind supporters of the Hospital to the fact that left off clothes, samples and rags suitable for bandages, and samples of carpets for the bedside of patients would be most acceptable to the Institution.

The following statistics show the class of patients treated during 1879, compared with 1878 :—

EDITOR'S TABLE.

St. Patrick's Day. We salute all our Irish readers and subscribers on this National anniversary. It is the saddest Patrick's Day poor Erin has celebrated for many years, but let us hope that when it next comes round the black cloud that now hangs over our native land will have passed away, and health and plenty be again its lot.

Eight o'clock sharp at the Opera House to-night. Everything is ready, even to the buttons on Mr. Pettibone's gaiters. The rehearsals show that all the performers are perfect in their parts. The programmes are a marvel of artistic taste—and the decorations of the theatre, what shall we say about them? Nothing: lest we spoil the legitimate triumph of those who designed them when they burst on the dazzled gaze of the audience this evening. The orchestra is preparing such pleasant surprises for Irish spectators that by shutting their eyes they can easily fancy themselves as of yore in 'the Royal' at Dublin, now alas, a blackened ruin. We have already announced that train and tramway arrangements have been made, so have nothing to say except to advise all who can to attend the best dramatic performance which the British amateurs of Buenos Ayres have ever offered to the public.

We beg to contradict a statement in our newspaper, handed into us last week, mentioning that a marriage had taken place between Martin Nielson and a young lady residing in Lomas. The above statement turns out to be a mistake on the part of the person who gave it, which said person begs to mention that he is truly sorry it should have happened.

It must necessarily interest the sporting public of this city to know, that for the great race on Thursday at Lanus a special train will take all the brokers from the Bolsa at 5 minutes to 4 o'clock p.m. The race will be one of the greatest ever run since the days of the old English races in Belgrano. We advise all to go, as there is really no mistaking the winning horse.

The mails by the Pacific steamer Magellan came up in the river steamer from Montevideo yesterday and were delivered early. There is no very interesting news, except the destruction of Theatre Royal, Dublin, by fire on a day when the Lord Lieutenant was to attend a special performance of the pantomime, for the benefit of the Irish Relief Fund. Five lives were lost and every shilling's worth of property in the building was destroyed. We give full particulars in another column. In Parliament the First Lord of the Admiralty, replying to Mr Mitchell Henry, gave the fullest assurances that the Government would do everything possible to alleviate the distress in Ireland, and detailed several steps that had already been taken to that end. The latest news from the United States about the Irish Relief collections is as follows: "The total American collection for Irish Relief amounted on Tuesday to $405,000, Mr J. W. Mackay, of Nevada, has given $10,000 to the *Herald* fund. The *Times* correspondent says that Mr Parnell is delivering addresses in the Pennsylvania coal region—among the 'Molly Maguires,' 'but his movements attract little attention.'"

We received yesterday several further communications in reference to the recent correspondence about the Irish Relief Fund, and, as it is clear that the Public are tired of it we beg to say that no further letters of the kind will be published. Those with subscriptions for the Fund will of course, receive a 'cead mil faltha.'

The weather warmed up considerably yesterday, and the barometer looked as if rain is not far off. If it will kindly keep off till the performance at the Opera House to-night is over, ever so many people will feel much obliged.

Mr Newman, of the River Plate Telegraph Company, leaves this evening in the Silex for the sister city, to resume his duties there. His many friends in this city are sorry his stay was so short, but hope to see him soon again. 'Aux revoir.'

We call the attention of our Roman Catholic readers to the advertizement from the Venerable Dean Dillon, in reference to the ceremonies to-day at the Merced Church.

A Chair of Italian has been established in the University, in compliance with a promise which the Rector, Mr. M Estrada, made to Rossi, the great actor, when he was last here. Dr. Fontana is the new Professor of Dante's dulcet tongue, which now threatens the long held supremacy of French in our fashionable circles. After all, there is nothing like plain English.

Next Sunday will be another great day at the Opera House. The successful Argentine exhibitors at the Paris Exhibition will at last obtain the prizes they won so well. It is about time. The National Government will be represented at the ceremony.

Two grave-diggers at the Recoleta were locked up on Monday for opening a coffin and taking a Provincial Bank pass-book from the corpse of an Italian who went to his grave in his everyday attire and forgot to leave the pass-book behind him. His disconsolate widow could not see the fun of this, so persuaded two of her friends to pay a midnight visit to the cemetery and get the book for her, which they did, but were caught in the act.

The recent Oficina de Tierras scandal, unearthed by the *Prensa*, is now before the Tribunals, the Governor and his Finance Minister having submitted the matter to the Judges to see who is to be prosecuted in this very intricate affair. Meanwhile, as a first step in the matter, the Chief Clerk of the Ministry of Government has been sent about his business.

Poor Governor Tejedor must feel the weight of popularity to press heavily on him. Every second day he is invited to a Tiro or Bombero banquet; last week the people of Mercedes 'albumed' him, and on Monday last a deputation of Chascomusians gold-medalled him. Very few previous Governors got so many keepsakes from an admiring public.

The Rev. James Smith will preach on Sunday next, at noon, at the Cabaña, district of Cañuelas. There will be morning and evening service as usual in the Scotch Church, the Rev. Lachlan McNeill officiating; also Sunday School at the usual hour.

We publish in our Weekly issue of to-day Father Kenelm Vaughan's advertisement in reference to his 'Work of Expiation', which has the sanction of His Holiness the Pope, Cardinal Manning, the Archbishop of Buenos Ayres, and all the Archbishops and Bishops of Central and South America. Of the hundred Founders required for this pious enterprise 72 have already been found in other republics of Central and South America, leaving 28 for this republic: of these three have already come forward, Dn Felix Frias, Dr Lamarca and Mr Thomas St. George Armstrong. There can be no doubt as to Father Vaughan's speedily filling up his list. We understand that, shortly after Easter the Rev. Father Jordan will preach a special sermon on the pious work Father Vaughan has in hands.

An intelligent Galician tax-collector has set the Municipal officers in a roar and a ruction by summoning a respectable furniture dealer in Calle Defensa to pay the 'Balanzu' tax. This worthy son of Iberia cannot be persuaded that chairs, tables and beds are not sold by weight. We suppose he is the same collector who summoned a French milliner of Calle Florida some months ago for not keeping a pair of scales to sell her bonnets and flowers.

One of our staff visited a friend's house last week to see the new Patagonian coal burning, and he was quite delighted at the prospect of having at least cheap coal, even if bread kept up to its present price for the winter. We recommend our subscribers to try this new product, which has come from the coal mine Martha, in Skyring Water, Straits of Magellan, Chile. The mine is situated on the north shore of the Gulf of Skyring, in Long. 71° 40' 50', and about Lat. 52° 30' S. When we consider that this coal (200 tons of which are now in Buenos Ayres) has been extracted only at a depth of a very few yards (10 yards) and that it lies in a 'corralon' alongside English coal, extracted at a depth of 500 yards, it will be seen that its being in small pieces is due to its having been extracted by 'non-miners' and exposed here to the solar rays, wind and rain. When extracted from a greater depth large masses will be delivered, and it will be equal to the best Scotch coal in this market.

This was a quiet day enough on 'Change; gold stiffened owing to heavy purchases by an Italian broker, and closed 10 cents dearer than yesterday. The sales were not heavy, and the whole business only reached to 657,744 pats

In political circles the news was that Governor Iriondo is to be here to-morrow to confer with Governor Tejedor, and General Roca is expected down for the same business. Respecting Mr Sarmiento's nomination most of the Mitrista people on 'Change seem little satisfied, and they say that another candidate has yet to be proposed.

Cedulas continue upwards; sales to-day cash at 84⅜, and for end of month same rate. Treasury Notes since yesterday are in active demand and sold to-day at 78½. National Bank Shares have also advanced, done at 57.

The Magellan and Archimedes's mails are the same dates, Feb. 12th; the following are the last quotations :—

The death of Don Domingo Pita, the Decano of the Bolsa, was announced this morning. Mr Pita had for some time been in poor health, and although he attended the Bolsa until very lately, it was evident that the exertion was too much for his advanced years. He died yesterday at the ripe age of 78, sincerely respected and esteemed by the whole market. His funeral took place this afternoon at 4 o'clock, and was largely attended. Deceased was an excellent type of the old native gentleman, of good manners, and valueing his word in business transactions as worth more than all the stamped paper in the Government House.

There was nothing further from Montevideo to-day, and the great political pressure of yesterday seemed to have been forgotten. Men who are well up in Montevideo affairs say that Dr. Vidal is not the man for the post, not having sufficient iron energy, and fresh changes are looked for. It may be however that everything will fall out all right, and that Dr. Vidal, if supported by the influential people of Montevideo, will rule the place with the greatest success.

There is some enquiry on 'Change for Platino Brazileiro Telegraph Shares, and one or two sellers, but some misunderstanding about one old share for so many new. The holder of 225 shares called on us to-day, and is anxious to sell. Respecting the recent rules adopted in London, no one here seems to understand.

Mr. Ackeroyd from Rosario was welcomed on 'Change.

Don Manuel Doltz, the new Secretary of the Camara Syndical, enlivened the Bolsa somewhat by putting up the latest telegrams, as published in the *Jornal do Commercio* of Rio, which is a very capital move, and shows an improvement in Bolsa affairs. The telegrams gave the following—

New York, March 5th.—Exchange at 4.84. Kerosene, 11.12. City Para sailed for Rio.

Lisbon, March 5th.—Equateur from South America arrived. Britannia for Plate entered on 1st.

Bordeaux, March 4th.—Wine, first mark, at 440-446, 905 litros.

London, March 2nd.—Market and bank rate for money the same.

Paris exchange, 25.23. Antwerp, 25.23. Hamburg, 20.33.

Lisbon, March 2nd.—Trent sailed on 28th for Plate.

The gold sales were :—

Don Ricardo O'Shea was warmly welcomed on 'Change and congratulated on his recovery.

Gold at afterhours at first ruled very hard and some sales were made at 30.50, but the market broke a little before 4 o'clock by a well known broker who sold freely for Saturday at 30.45; others followed suit, and soon there were no buyers at that rate.

The memoria of the Provincial Bank for last year will be this week discussed: there is much anxiety to see it.

It is said on 'Change that Dr. Plaza in his memoria to Congress proposes that next year the paper money be received at the Custom House at 25 m/c per patacon. The beginning of a long needed move. The debt due to the Provincial Bank, 8 millions, will be proposed to be funded and paid off in Hard Dollar Bonds.

Exchange on Montevideo ½ premium takers, Condors ¼ premium, Sovereigns 1 premium and francs 2½ to 2⅝ premium.

Messrs. Duggan sold the following—

1,300 arr. at 106
1,000 arr. " 100
6,000 arr. " 108

At the Once Station all sold and no cargo train in this morning.

The sale of a large estancia was concluded to-day, but everything for the present reserved.

Exchange on London 49⅛-⅜, on France 5.22-23. Very little done.

The Mortgage Bank has just made an important sale of land at Moron: 30 manzanas for 120,000 m/c, equal to 18 squares of 150x150 at 7,500 per square. This sale fixes the value of the square of chacra land in Moron, not close to town.

Freights rule very firm. Cybele more than half full, she sails on 23rd.

Colonel Vasquez, Minister of War in Montevideo, arrived up there. All anxiety about affairs down there removed for the present.

The Magellan has brought out £40,000 to Mallmann, but will remain in quarantine till 21st. She has landed all her passengers at Flores Island. She will sail on 28th inst.

The news about tallow continues unfavorable as appears by telegram. The price of salted hides in Liverpool is said to be 7½.

Hides—1,700 Correntino at reserved rates.

The salted hides reported sold yesterday were from Arias's saladero, Concepcion, price reserved.

We have received the following letter for publication :—

The undersigned consignees of cargo arrived per Vandyck have pleasure in recognising in the present form the good services of Messrs Kennedy & Hunter of this city, and the disinterestedness of the owners, Messrs Lamport & Holt, under the following circumstances :—

The said steamer Vandyck arrived from the River Plate, when this river was closed by the ice, and she was directed to London to discharge there.

Some days later, the navigation being rendered free again by the thaw, the cargo, which was in part already discharged, was reshipped and the steamer sent back to Antwerp, where all has been delivered without any extra charge or expense.

We desire therefore to fulfil a duty in presenting our thanks to the above gentlemen.

And the assurance &c.

The scarcity of good camp is so much complained of that it is quite evident the stock of sheep in this province is increasing rapidly, and as there are no graserias worth talking about now in the country districts, the consequence is, fine soft grass lands for sheep are becoming each day scarcer. In the North all the good camps are bought up, in the West the camps are all 'pasto fuerte' and the wools from there this year have come to market in the most wretched condition; in the South the fine soft grass lands in the Tres Arroyos are receiving extraordinary attention, and in ten years from now the greatest sheepfarms in this province will be in the district from the Sierra de Ventana to Bahia Blanca, and from thence to Patagones. The port of Bahia Blanca is convenient and of easy navigation, and wants but a few barracas to catch the local trade down there. A broker informs us that in the great zone of land from Tandil to Bahia Blanca there are six millions of sheep and over two millions of cows, which is a very respectable beginning wherewith to stock these lands; and Mr Kincaid, an estanciero of Patagones, assures us that in that district the finest soft grass lands in the province of B. Aires are to be found; but the place is without any stock, and it well behoves those who have surplus stock in the thickly settled partidos to secure some of the fine lands down there, say 20 or 30 square leagues, and drive down 20,000 sheep and 5,000 head of cattle to start an estancia that in a few years would supply the whole country there with stock that is so much wanted. The enterprise is one of the finest that offers in this country at present, and we commend it to the attention of our countrymen. On an estancia in the far North a 'rodeo' of horned cattle gave 46 per cent increase last year; people who are in the estancia business can well understand what that means; and of all the prosperous years that have blessed this country, the last year is admitted by all to have been the best; and whatever the nation may have lost by the short crops of the colonists in Santa Fe, it has amply recovered by the increase of stock in this province; in one word, all the improvement and progress of the country that is now going on is outside on the camps; and at the rate we are going ahead in that direction with a few years peace and favourable seasons, this country will become the greatest live stock country in the world.

The gold market at last presents a change, and we, who are supposed to watch it more keenly than anyone else, and to glean from the conflicting opinions of the brokers fresh light, announce the turn in the tide. Gold for cash is getting dear and on time cheapening, which signifies returning confidence in the political future and returning specie demand for the rivers. The confidence which people have in the patriotism of our public men is in nothing disturbed by their too boyish squabbles. Merchants look over the heads of those in high places who allow their feelings to permeate official documents; and the progress and stability of the country outweigh the errors of statesmen who have sufficient common sense left to avoid a conflict in which they themselves would be the first to perish. The gold market, as we have said, reflects that growing confidence, and gold is fast becoming cheaper and cheaper on time, which is the surest of all barometers. People are beginning to see that no matter what the result of the Presidential Election, nothing could justify a civil war, and whether Roca be elected or not, whether the provinces secure in our Congress a majority or not, whether Tejedor, Irigoyen or Sarmiento win the day or not, a fight between the province of B. Aires and the other provinces is simply and utterly impossible. Not all the Rocas or Tejedors in the Republic could compensate the province of B. Aires for the losses which she would sustain by a campaign that would spread over her richly stocked camps ten or twenty thousand Santafecinos, Cordobeses, or Santiagueñans, who would desolate the land and sweep off our stock by whole 'rodeos'. The consequences are far too terrible to be even contemplated, and it is the magnitude of the misfortune that convinces the speculating public that, no matter what the newspapers may publish, the Presidential question will pass off without trouble.

Messrs Lacrosse, whose well managed tramways in this city have secured for them the highest reputation in that line of business, have, we are happy to say, taken up the scheme of a tramway to Cañuelas, Monte and Rauch. The works, we understand, will be at once commenced; the company is local and joint stock, and the line to Cañuelas, which it is expected will be finished in a few months, will cost one million four hundred thousand fuertes. All the estancias have taken shares.

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I haveat your request made a careful examination of he sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 80 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,

JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Roduent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Pildoras Holloway

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguento Holloway

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo origen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533, Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan al as personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Unguento de Holloway' falsificados para que se sirvan al comunicarme los pormenores, e inmediatamente hare formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabaja que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

FLUIDO LITTLE

(THE LITTLE DIP)

Especifico para CURAR LA SARNA EN LAS OVEJAS,

El mas eficaz

El mas barato

El mas facil de aplicar

De todos los Antisarnicos hasta ahora conocidos.

ESTE ESPECIFICO es libre de veneno y se disuelve al momento y enteramente en agua fria; puede ser empleado en cualquier estacion del ano. Ha alcanzado ya tal fama en esta Provincia que es casi el unico remedio empleado en los partidos de Chivilcoy, Mercedes, 25 de Mayo, Chacabuco, etc. Viene en tambores y cascos y se usa mesclado con 100 partes de agua.

TODAS LAS PERSONAS que han usado el Fluido Little estan contentisimas con el, como se vera por las cartas recibidas por los Agentes de los Sres. E. Casey, Eugenio Keenan, John O'Connor, John J. Gahan, George H. Scott, Michael J. Kearney, Luke Rooney, John Brown, E. Garrahan, Henry Saint John Forssman, Alejandro J. Garcia, Benito Orisol, etc.

EL PROFESOR KYLE en una carta fecha 17 de Febrero ppdo. dice—'Juzgandolo de un punto de vista quimico, con la mayor confianza puedo recomendar a los Estancieros el Antisarnico Little, y no tengo la menor duda que dentro de poco sera el favorito para la cura de la sarna, etc.

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como tales las malas y aun peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.

Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas pildoras y ungüento, logrando con esto reprobado trafico una enorme ganancia.

Ninguno de los expresados medicamentos son genuinos, si no llevan en el rotulo de cada bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.

Las personas que tengan la bondad de informar de algun traficante que venda las enunciadas medicinas falsas, seran muy bien remuneradas, y nunca, ni en circumstancia alguna, se publicaran sus nombres.

12 Hermosisimos Carneros

LINCOLN

6 Carneros Shropshire Down, sangre pura

Recientemente Llegados

Procedentes de afamadas cabañas EUROPEAS

Elegidos por el Señor HENRY STEVENS

En nuestra casa San Martin 51.

El Miercoles 31 de Marzo, terminado el remate de los caballos del Sr Casares, procederemos a vender por orden y cuenta del Sr arriba nombrado los doce hermosisimos carneros sangre pura Lincoln, procedente de la hoy celebre y conocida cabaña en Lincolnshire de propiedad del Sr D Juan Turner y que tanta aceptacion tuvieron el año pasado asi como tambien seis carneros sangre pura Shrophire Down, cuyas ventajas en el pais son bien conocidas.

Llamamos la atencion de los Sres hacendados sobre la demanda y ultimos premios obtenidos por la caponada Lincoln, los de cuales varian (pelados) desde 70 hasta 120 ps, y en cuanto a los Shropshire Down, el Sr D L Pereyra ha vendido toda la que tenia en la estancia San Juan, al precio de 90 ps. (pelados). Esta es pues la unica recomendacion que hacemos por la propagacion de estas dos razas.

Estos esplendidos animales pueden verse en nuestra casa San Martin 51, desde el Lunes 8 del corriente.
